Physical Education Curriculum Analysis Tool

8:30 am – 12:30 pm

Arizona Department of Health Services  
250 N. 17th Avenue, Phoenix, AZ 85007

The purpose of the PECAT is to help school districts conduct a clear, complete, and consistent analysis of physical education curricula. PECAT results can help users enhance, develop, or select appropriate and effective physical education curricula for the delivery of quality physical education, which will improve the ability of schools to positively influence motor skills and physical activity behaviors among school-age youth.
